

Please insert the following paragraph after paragraph [00121] in the
Substitute Specification.

B1 [00121.5] This miniaturization can permit the overall filter size to be
smaller than or equal to $2.5 \times 2.0 \text{ mm}^2$.

5 Please amend paragraph [0034] in the substitute specification as follows:

B2 [0034] This object is also achieved by a method for manufacturing
~~operating~~ this SAW filter, comprising shifting a pole point in the SAW filter;
raising or lowering the static capacitance of at least one of the first SAW
resonator and the further first SAW resonator; and raising or lowering a static
10 capacitance of one or more further, non-coupled first resonators such that an
overall sum of the static capacitances of all parallel resonators remains identical.
